Free Legal Icons by Transcend

As readability and translation experts, we know that icons play a key role in communication. The legal industry did not have its own standardized set of universal icons. Transcend's graphic artists took inspiration from existing universal icon sets (AIGA's travel icons and SEGD's healthcare icons) and created a set of universal icons for the legal professions. These legal icons are free, field-tested, and easy to use for print and web. Use them to help make your legal information and signage more accessible and unified.
