Drupal Distribution for Legal Aid DLAW 5.0 Released

Announcing the release of DLAW 5.0, an open source website management solution for building effective and beautiful public information websites.

DLAW includes pre-built features designed specifically for running public information websites using current best practices in web design and user experience. Features include: responsive design, management dashboard, news, events, resource library, faceted website search, visual editor, multiple themes, analytics, social media integration, and many more. Once installed, a DLAW website's content can be easily managed without requiring technical web expertise. DLAW 5.0 includes user experience enhancements to website search and navigation as well as new features. It was developed by Urban Insight in collaboration with Kansas Legal Services (KLS).

(Also see DLAW 6)
